Agility™
Flexible Wireless Solution

Different People. Different Needs.
One Flexible Solution.

You have a lot on your agenda. Whether you are a homeowner, or have your own office, it's important for you to know that **your family is safe**, and your **home and business are secure**.

Agility is the **most flexible & reliable** wireless security and safety system on the market. Agility **puts you in the picture** at all times, letting you keep track of your home, your business and your loved ones.

Different People. Different Needs.
One Flexible Solution.

Picture A Solution So Easy To Use

With Agility, it's simple to manage your home or workplace, as the solution has been designed with you in mind. We understand that even the most advanced technology has to be easy to use by all family members.

Agility's flexibility enables users to perform a variety of day-to-day tasks in a simple and intuitive manner. The level of security varies according to your requirements, from a convenient proximity tag on your key chain to entering a PIN code in the Keypad or Remote Control. Agility's Keypad comes with a blue LCD and key backlight so you can easily read the screen, even in the dark.

The 2-Way Remote Control is designed with a status indication LED, so if you forget what your last action was, you can remind yourself via the Remote Control.

Picture A Solution That Lets Dedicated Users Access It Anywhere, Anytime

Picture yourself on the go: rushing to a meeting, at the gym, on vacation, or away on business. Regardless of the situation, Agility keeps you in the picture at all times. With Agility, you can control your system via any means of communication - Internet, telephone, mobile or SMS. The voice operation menu announces options and instructions on how to use the functions; and with video verification, you can view your home or office remotely.

Picture A Solution That Lets You Know Your Loved Ones Are Safe

Agility ensures maximum protection for the people you care about the most.

Ensuring Your Elderly Parents' Safety:

Does your elderly parent need assistance? Is he or she moving around? Agility ensures peace of mind with a wristband panic transmitter ideal for elderly parents living alone. Waterproof, it can be worn at all times, on the wrist or as a pendant. In case of emergency, it alerts the control center or the person of your choice via a mobile phone. In addition, Agility alerts you if your elderly parents are immobile at home for more than a specified time frame.

Ensuring Your Children's Safety:

Are your kids safely home from school? Did they disarm the system? With Agility you can receive automatic updates via your cell-phone.

Ensuring Your Home is Safe:

Agility's Safety Accessories include wireless flood, gas, carbon monoxide, and smoke detectors. In the event of water, gas or carbon monoxide leaks or fire, Agility automatically notifies you and the monitoring service, enabling you to take immediate action.

Picture A Solution That Answers All Your Security Needs

Agility offers a wide range of one and two-way wireless accessories, enabling you to design a system tailored to your needs. Simply mix and match.

Agility's Security devices comprise the most advanced and reliable products on the market; connecting IP cameras allows you to view and monitor your home and enables the monitoring station to verify intrusion events. Agility's indoor and outdoor motion detectors, shock detectors, and glass-break detectors protect your home at all times.

Agility also has Pet friendly detectors that allow complete freedom of movement for pets with no loss of detection performance. Additionally, Internal and External Sounders provide an audible alarm notification following an intrusion attempt.

Picture A Solution That Enables Home Automation

Agility's convenient Home Automation capabilities include a scheduler for automatic activation of home devices such as lighting, the garage door and garden sprinklers.

While away on vacation you can automatically turn on/off lights and your stereo system at scheduled times during the day, giving the impression that your home is occupied.

One Flexible Solution.**

Picture A Solution That Even Gives You A Communication Back-Up Option

In today's world, landlines are becoming a thing of the past. Precisely for this reason, you need a system for today and tomorrow. Agility supports broadband, GSM, landline phone and other communication methods. Simply select any or all of the communication modules.

Picture A Solution That Eliminates Installation Aggravation

Fully wireless, Agility eliminates the need to tear holes in your walls or run wires. Wireless also means that it won't interfere with your home décor. With its modern, sleek design and hidden panel box, Agility fits contemporary life. What's more, when you move to a new property the system can move with you.
